DIOS

IP65

Input
230V/50Hz

- GB** The fixtures can be installed by authorized persons only according to valid regulations on professional qualifications in electrical engineering. Failure to comply with manufacturer's installation instructions not liable for any damages!
- DE** Die Leuchten können nur berechtigten Personen gemäß den geltenden Vorschriften über die berufliche Qualifikation in der Elektrotechnik installiert werden. Die Nichteinhaltung Herstellers Einbauanleitung nicht haftbar für Schäden entsprechen!
- FR** Les appareils peuvent être installés seulement aux personnes autorisées conformément à la réglementation en vigueur sur les qualifications professionnelles en génie électrique. Défaut de se conformer aux instructions d'installation pas responsable des dommages du fabricant!
- ES** Los accesorios pueden ser instalados por personas autorizadas de acuerdo con las normas vigentes en materia de cualificaciones profesionales en ingeniería eléctrica. El incumplimiento de las instrucciones de instalación no será responsable de los daños y perjuicios del fabricante!
- RUS** Светильники могут быть установлены уполномоченными лицами только в соответствии с действующими правилами по профессиональной квалификации в области электротехники. Невыполнение установки с инструкциями производителя не несет ответственности за любые убытки! .
- IT** Gli apparecchi possono essere installati solo a persone autorizzate in base alle normative vigenti in materia di qualifiche professionali in ingegneria elettrica. Il mancato rispetto di istruzioni di installazione non è responsabile per eventuali danni del produttore!
- PL** Oprawy mogą być instalowane wyłącznie przez osoby uprawnione zgodnie z obowiązującymi przepisami dotyczącymi kwalifikacji zawodowych w elektrotechnice. Niezastosowanie się do instrukcji producenta instalacji nie odpowiada za jakiegokolwiek szkody!
- SK** Svietidlo smie na elektrickú sieť pripájať len osoba s odpovedajúcou kvalifikáciou podľa platnej vyhlášky o odbornej spôsobilosti v elektrotechnike. Pri nedodržaní montážneho návodu Výrobca neručí za prípadné vzniknuté škody!
- CZ** Svítidlo smí na elektrickou síť připojovat pouze osoba s odpovídající kvalifikací dle platné vyhlášky o odborné způsobilosti v elektrotechnice. Při nedodržení montážního návodu výrobce neručí za případné vzniklé škody!

Mounting of the recessed fitting max. mounting cable length of the cable voltage drop to 3% the section max. 2.5 mm²	Power supply connection C8 1.1 - phase wire - isolation color: brown 1.2 - phase wire - isolation color: black (only operation) constant phase - power supply of emergency module N - neutral wire - isolation color: blue MAINTAINED NON MAINTAINED 1.6 1.7 1.8 Fitting C8 version does not have a battery. During the installation, skip step 1.7.
Power supply connection C8 1.1 - phase wire - isolation color: brown 1.2 - phase wire - isolation color: black (only operation) constant phase - power supply of emergency module N - neutral wire - isolation color: blue MAINTAINED NON MAINTAINED 1.6 1.7 1.8 Fitting C8 version does not have a battery. During the installation, skip step 1.7.	Power supply connection C8 1.1 - phase wire - isolation color: brown 1.2 - phase wire - isolation color: black (only operation) constant phase - power supply of emergency module N - neutral wire - isolation color: blue MAINTAINED NON MAINTAINED 1.6 1.7 1.8 Fitting C8 version does not have a battery. During the installation, skip step 1.7.

Mounting of the surface-mounted fitting max. mounting cable length of the cable voltage drop to 3% the section max. 2.5 mm²	Power supply connection C8 1.1 - phase wire - isolation color: brown 1.2 - phase wire - isolation color: black (only operation) constant phase - power supply of emergency module N - neutral wire - isolation color: blue MAINTAINED NON MAINTAINED 1.6 1.7 1.8 Fitting C8 version does not have a battery. During the installation, skip step 1.7.
